### Project Finder - *Seeing is believing.*

No need to scroll through the online gallery, you can walk down the street and see our project in their built environment. Finding a project site is easy. Just click on the button below to find a completed AEP Span project near you!

### Locate Projects

The Shoreline Fire Department Station 63 in Shoreline, WA is a highlight-worthy project indeed! This site features our Nu-Wave® Corrugated, Box Rib™, Prestige Series®, Flush Panel & Span-Lok™ hp in Burnt Rust & Zinc Gray.

This was a project by Architectural Sheet Metal was 3 years in the making from design to completion. AEP Span worked with TCA architects from start to finish to bring this to fruition. Click the button below for more photos of the project.

Jeffrey Medeiros is the Architectural Representative for AEP Span and is a licensed contractor who has been supporting Architects in California for over 10 years. Jeffrey can spec write, assist in detail drawing, and aid in product selection or any aspect of the design/build process, from initial design to biddable documents. He is fluent in building code, CA bid laws, and contract code.

Get all the answers your need in our [Architect Center](#) or [contact Jeffrey directly](#) to make the most of your next project with metal!
