

PROJECT SPOTLIGHT:

LIONAKIS ARCHITECTS

SACRAMENTO, CA

In 2020, Sacramento-based Lionakis announced plans to revamp a 40,000 sq ft historic tractor showroom in Downtown Sacramento, with a goal of housing all 150 employees in once place. Renovations included trading of a T-bar drop ceiling for skylight additions, a lobby, an adjoining cafe, and a cool metal exterior by AEP Span.

AEP Span's Mixed Flex Series panels were selected for the exterior, and our SpanSeam™ roofing panels for the entrance canopy. Our cool ZACTique® II color was elected for all panels, helping Lionakis to be energy-efficient during the hot Sacramento Summers, while blending well with the urban atmosphere.

AEP Span's Flex Series panels are available in five different options, giving you the ability to achieve a custom looking design.

Architect: Lionakis Architects

Installer: Tecta America Sacramento, Inc.
